

CUSTOMER MISSION PROFILE

Airborne ISR

SD delivers mission tailored SATCOM solutions for ISR Aircraft Operators, primarily to support full motion video streaming over satellite.

Unmanned Aerial Vehicles (UAVs)

From ultra-lightweight Tactical platforms, through to larger MALE & HALE assets, SD has a range of equipment and satellite service options, to equip all sizes of UAVs.

Multi-role Aircraft

Includes deployable, hatch mounted solutions for the C-130, UH-60 and C-17 aircraft, enabling global satellite connectivity in Ku, Ka, and Mil-Ka.

Government & VVIP Aviation

SD is the market leader for Head of State Aircraft and currently supports 75+ countries with bespoke, end-to-end SATCOM connectivity, for their VVIP fleets.

SATCOM DIRECT CAPABILITIES

Aircraft Equipment

- Aircraft Antenna Systems
- Airborne Modems
- Aircraft Cabin Networks & Routers
- Video Codecs
