About Our Company

We, MiTAKA, are a company specialized in the manufacture of metal nameplates and decals for the aerospace defense industry. Since the establishment in 1955, we have been engaged in specialized printing in various industries and fields.

Our Mission

Reliably meeting customer requirements and quality, even for nameplates.

**We Created
Some Of The
Best Special
nameplate.**

In the specialty printing industry, there are very few companies that have obtained QMS certification, and there are only a limited number of companies that are trying to understand global standards and companies that have obtained JISQ9100 certification.

That's why we understand the aerospace defense sector and carry out missions to achieve customer requirements.

Our Vision

We used to build our business achievements mainly in the field of metal nameplates for the Ministry of Defense.

Going forward, however, we would like to increase initiatives in the field of private sector products.

(We have manufactured a lot of equipment nameplates, but we also want to work on beautiful interior parts.)

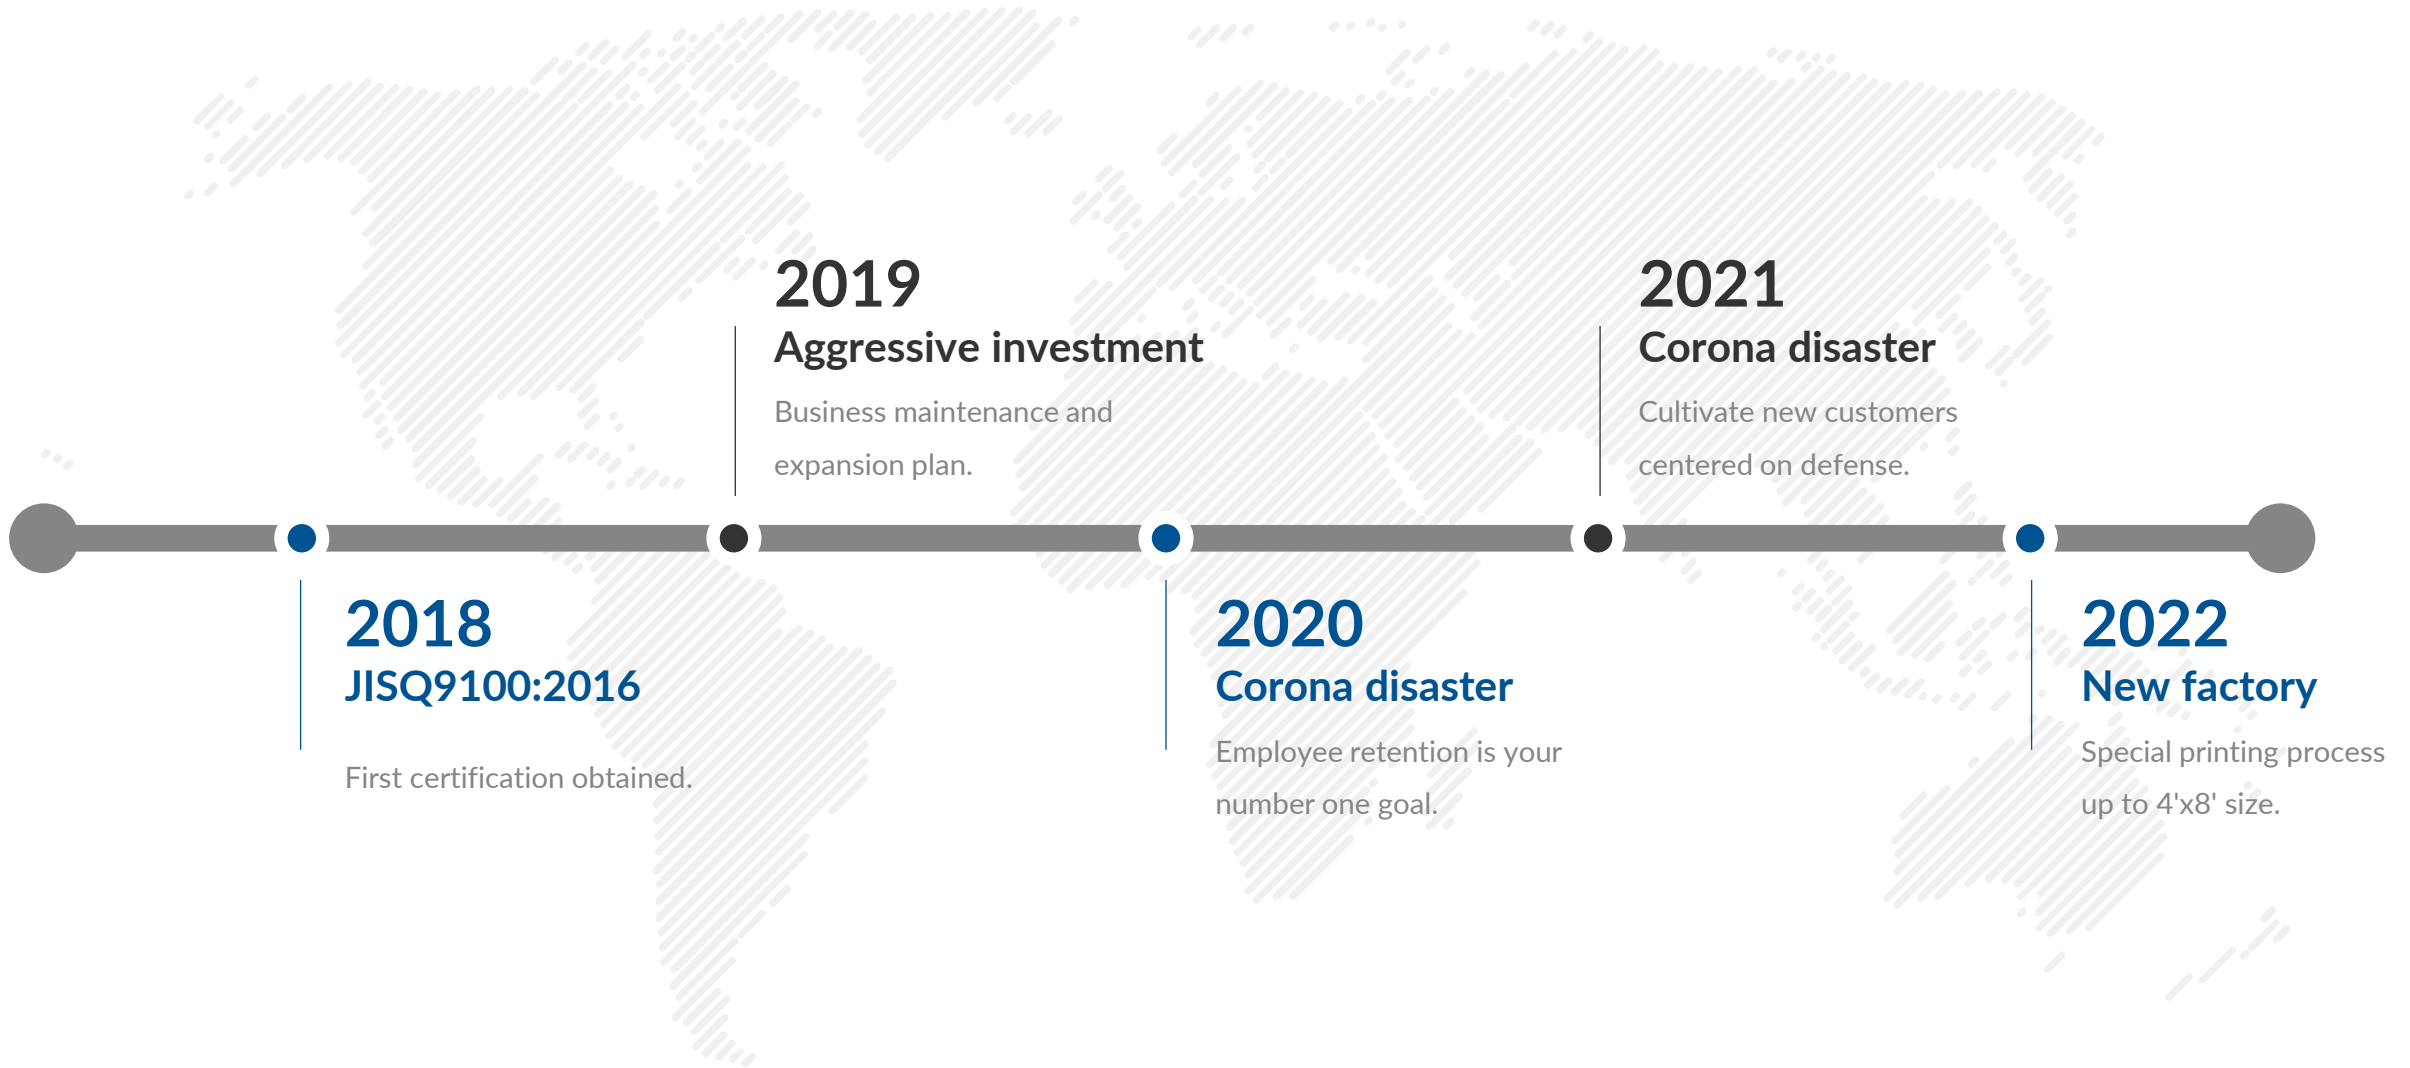

Company Overview

2030

Firm Participation in Civil Aviation Demand

Establish quality and systems, and receive
praise.

Why Choose us?

We understand and support our customers' requests.

We have obtained Aerospace Defense Management JISQ9100 Certification, It is rare in the specialty printing processing industry.

We also have a lot of experience in this industry and have met customer requirements.

Semi-permanent nameplates

Compatible with JIS H8601, MIL-8625, etc.

Rarity value

Very few JISQ9100:2016 certified companies in the special printing processing industry.

Stock materials

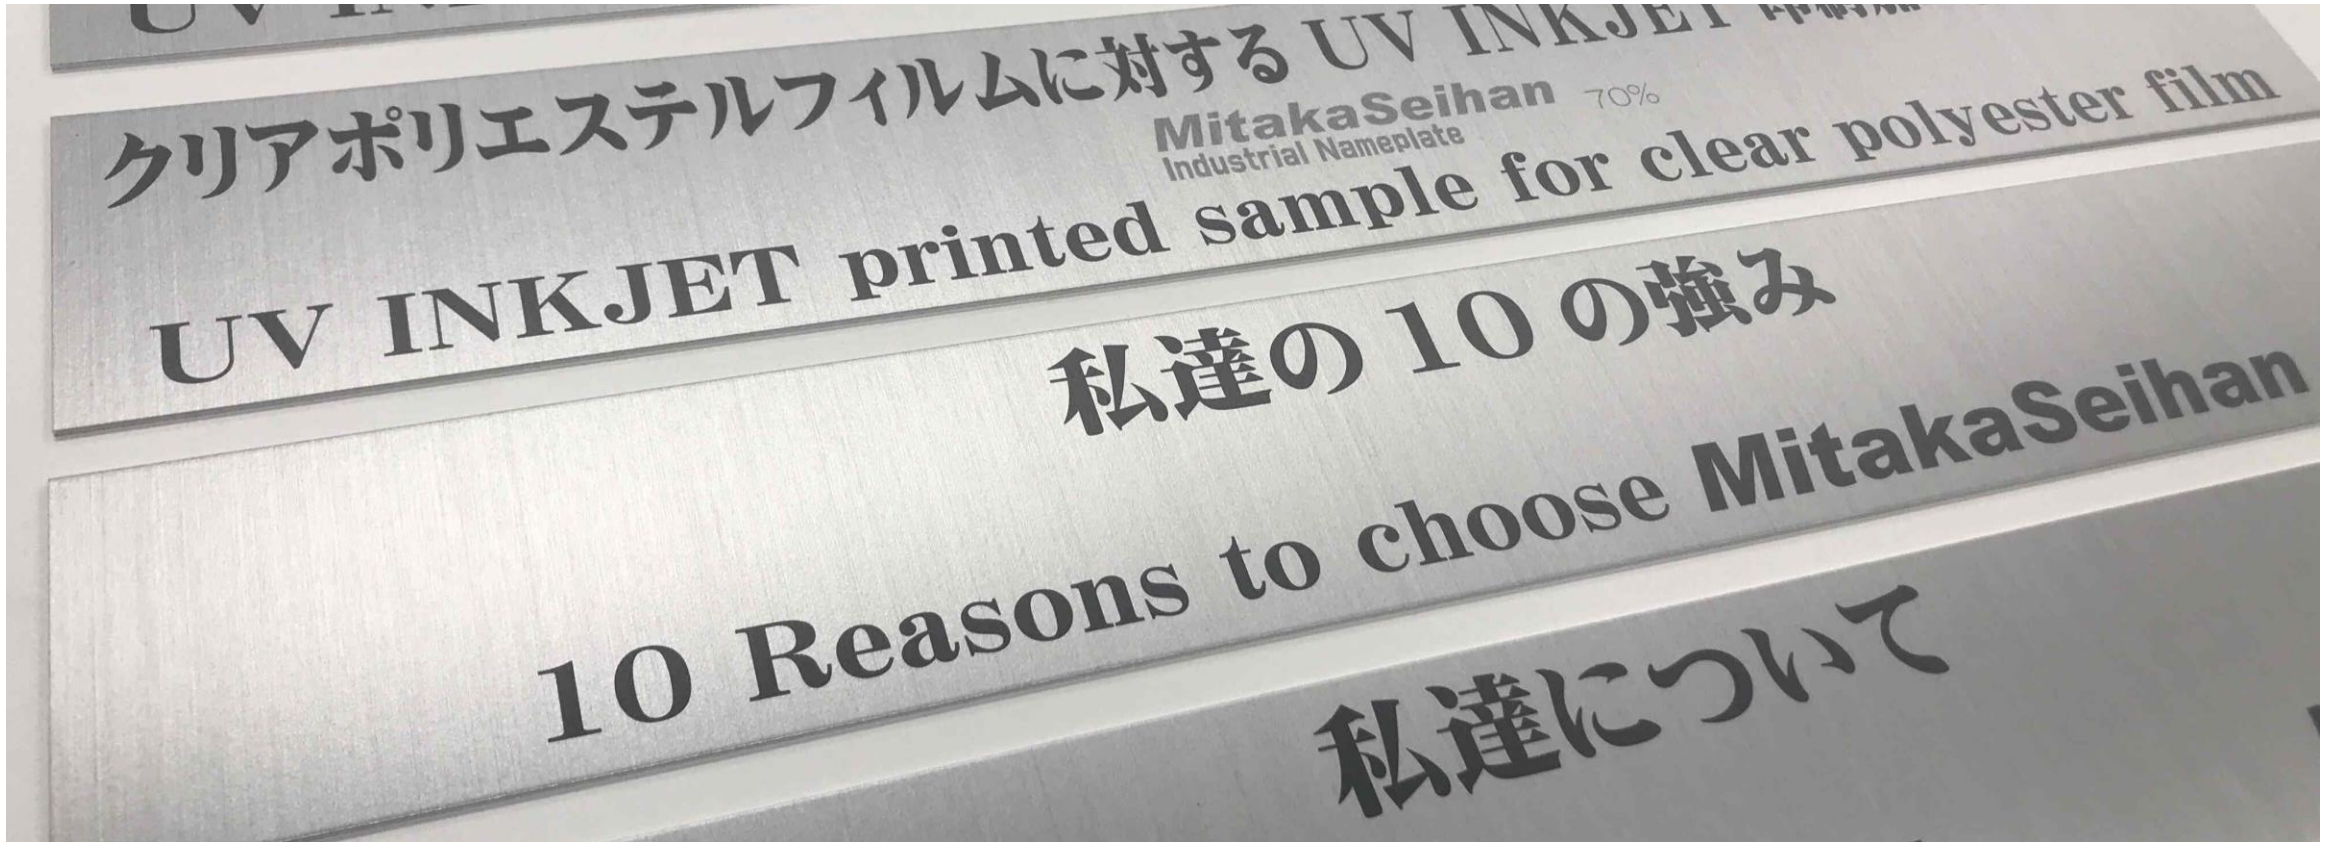

Reduce expensive material costs for small quantities.

Anodized Nameplates

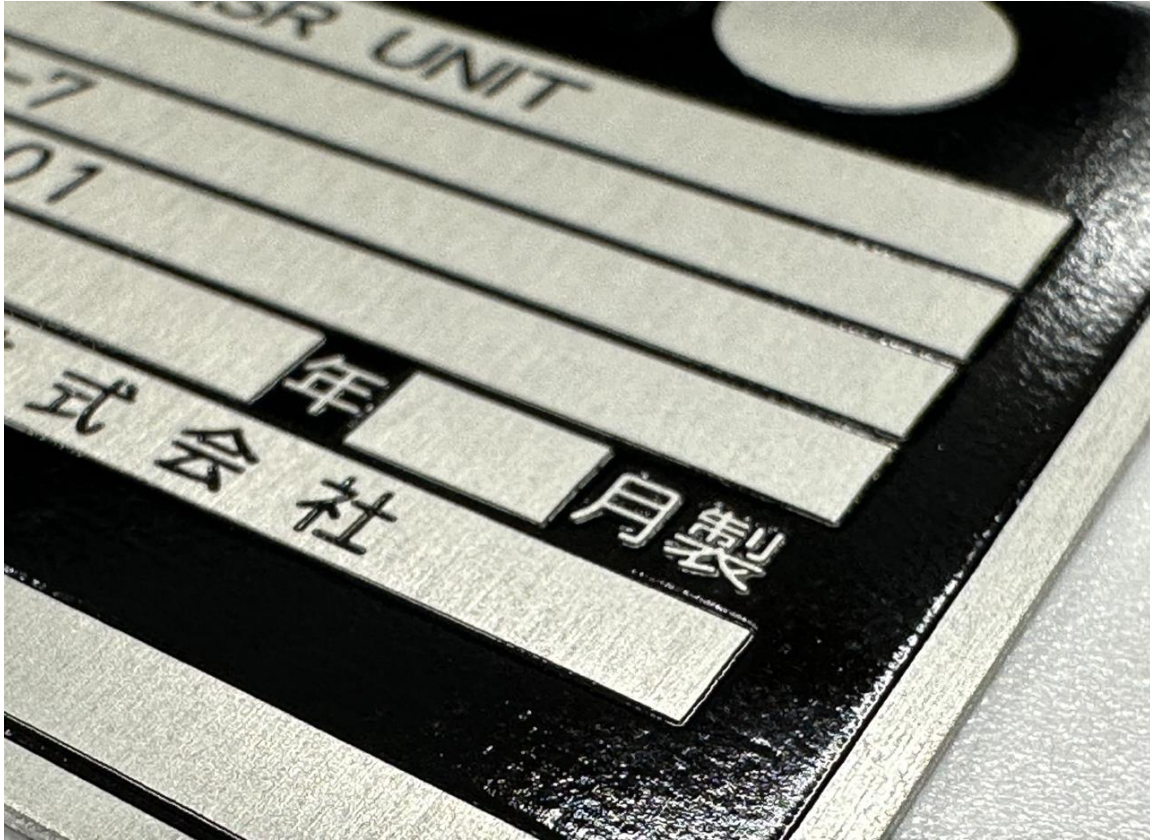

Thickness is [0.1mm] [0.2mm] [0.3mm] [0.4mm] [0.5mm] [0.6mm] [0.8mm] [1.0mm] [1.5mm] [2.0mm] [3.0mm] [4.0mm]

Commonly used aluminum alloy numbers are 1050, 1100, and 5052. ※2024 is also available as a material.

Semi-permanent nameplates

Anodizing after etching

We have manufactured semi-permanent nameplates in many patterns.

We have supplied products that meet the requirements of each company.

Decorative panel sheets

Reduce initial cost

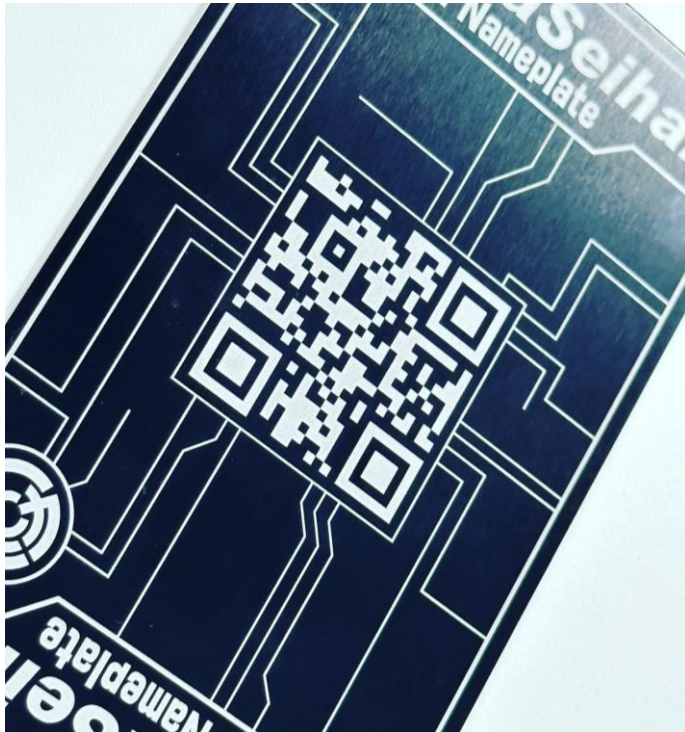

We have manufactured many decorative panel sheets.

Both old methods and special printing processes using the latest high technology are possible.

Our Projects

In all fields including aerospace defense field

Base material for laser marking

You can buy it on the online E-commerce site
and ask me.

Special spec decal

You can buy it on the online E-commerce site
and ask me.

Premium business card

You can buy it on the online E-commerce site
and ask me.

Our Clients

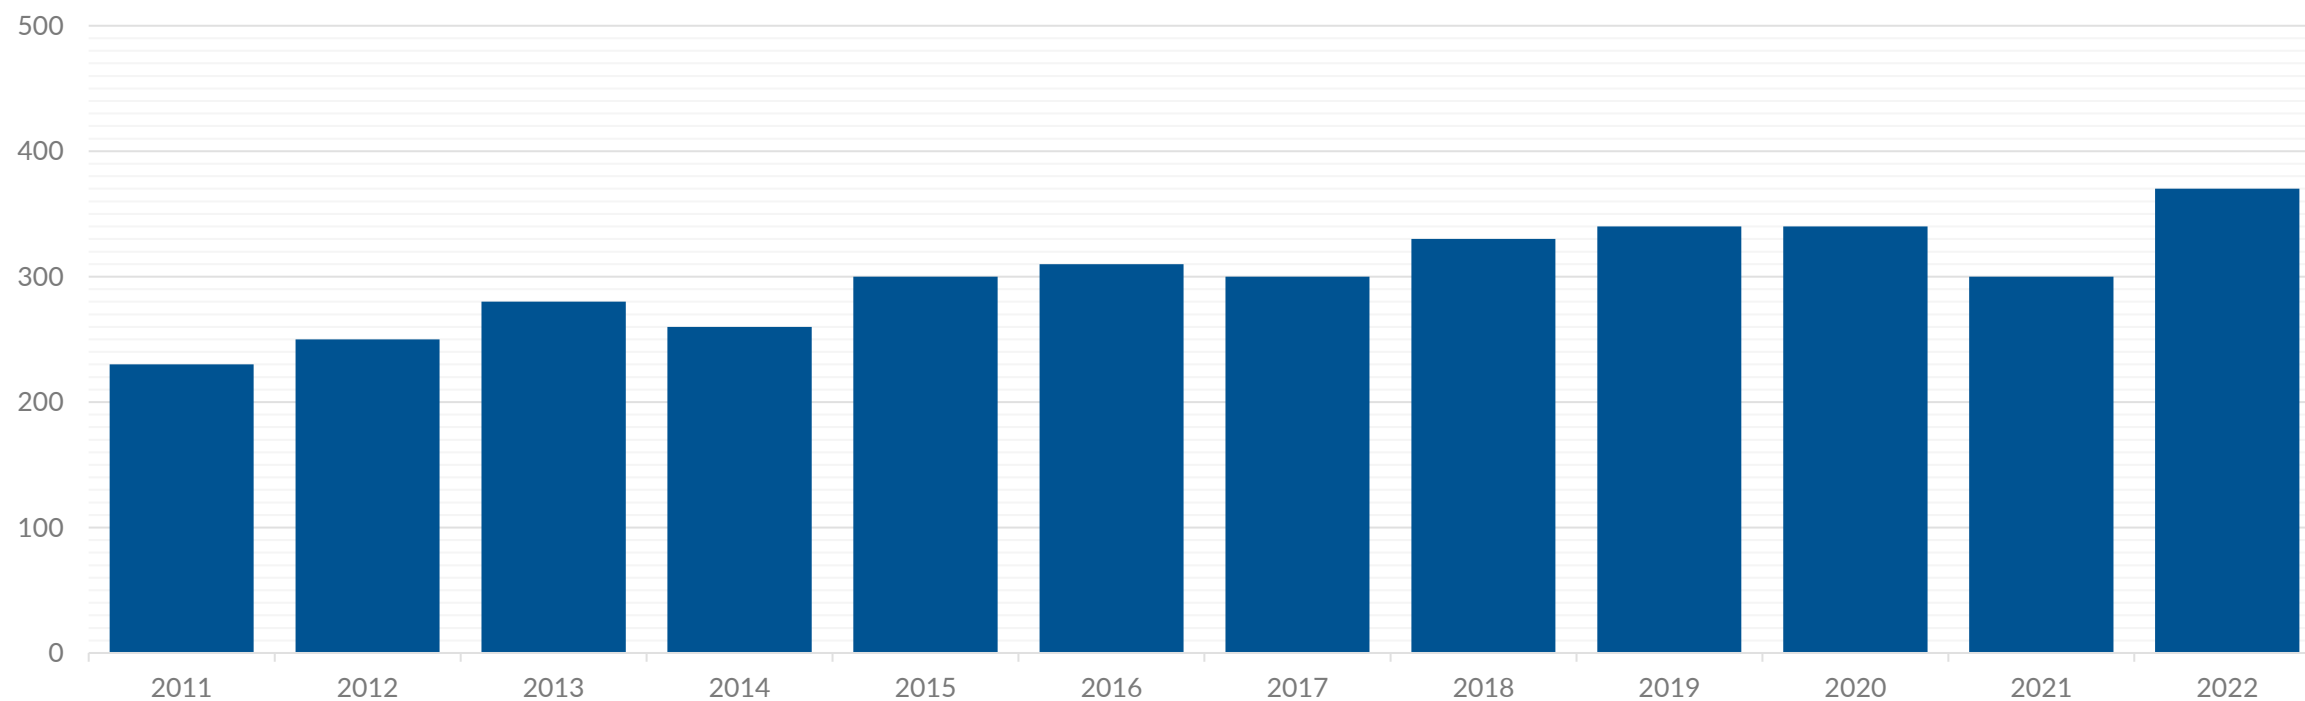

Contributing to the supplier chain centered on defense demand.
