## *Because Experience is Critical*

### Exceptional Service

Every team member is trained to provide exceptional service. Sunwest works with a highly qualified care network to deliver unsurpassed medical transportation services.

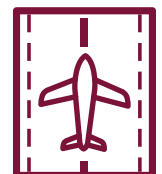

### Safety Leadership

We are committed to safety leadership and aeromedical excellence, which is why we continually achieve the highest accreditations and ratings in our field.

### Diverse Fleet

Our diverse fleet consists of turboprops for access to shorter runways and business jets with transcontinental and intercontinental range. [www.sunwestaviation.ca/our-fleet](http://www.sunwestaviation.ca/our-fleet)

### Specialized Medical Equipment

Sunwest Aeromedical maintains the highest standards for medical service and dedicated air ambulance aircraft equipped for advanced life support.

## Short & Medium Range

- Turboprops: King Air 200\*, King Air 350\*  
Access to shorter runways and smaller airports.
- Light Jets: Learjet 45\*  
Economic and fast. Suited for flights under 4 hours.
- Well suited for short or medium range missions within Canada, to the USA, and to Mexico.

## Transcontinental Range

- Midsize Jets: Gulfstream G150\*\*  
Impressive range with high cruise speeds.
- Super midsize Jets: Challenger 300/3500\*\*  
Excellent range, fuel efficiency, and runway access.
- Well suited for flights across North America, with the capability to fly to other continents with a fuel stop.

## Intercontinental Range

- Large Cabin: Challenger 604\*  
Converts from business cabin to full ICU at any time.
- Ultra-Long-Range: Falcon 7X\*\*, Gulfstream G650ER\*\*  
Global flight range and spacious cabins.
- Well suited for long range flights (5+ hours) and for when passengers require a larger cabin.

\*Full ICU air ambulance aircraft.  
\*\*Medical escort/charter aircraft.
