Guide to Exhibit

JAPAN MERNATUNAL AEROSPARE SOARING for DIVERSITY, over the GLOBAL-SKY, into SPACE

[Period] Trade October 16 (Wed.)-18 (Fri.), 2024

Trade & Public October 19 (Sat.), 2024

[Venue] Tokyo Big Sight (West Exhibition Hall)

Organizers: (s)AC

The Society of Japanese Aerospace Companies (SJAC)

Tokyo Big Sight Inc.

JAPAN INTERNATIONAL AEROSPACE EXHIBITION 2024

One of the largest exhibitions in Japan, showcasing the best of the world's aviation, space, and defense industries

Main Theme of Japan International Aerospace Exhibition 2024

SOARING for DIVERSITY, over the GLOBAL-SKY, into SPACE

The aerospace industry has been dramatically changed over the past few years with a great deal of expansion. The main theme represents the future expansion and diversification of the aerospace industry, and the wish to promote the aerospace industry together.

As one of the largest international aerospace exhibitions in Japan, under this main theme, JA2024 aims to promote the robust development of the aerospace industry to both exhibitors and visitors.

We have also developed three sub-themes that cover particular expanding areas in the aerospace industry and indicate the direction of JA2024.

- O SDGs in Aerospace Industries
- O Post COVID-19 Transportation
- O New Domain for Human Activities, Outer-Space & Cyber-Space"

In accordance with these sub-themes, JA2024 aims to target the exhibitors and visitors by breaking beyond the bounds of conventional exhibitions, and will add emerging fields such as decarbonization technology (SAF/hydrogen/electrification), which has gained a lot of attention in recent years, as well as Urban Air Mobility (flying cars/drones) and the space business (small satellites/space exploration).

"SOARING for DIVERSITY, over the GLOBAL-SKY, into SPACE"

The acronym of the main theme is SDGs, and this symbolizes the addition of SDGs to the exhibition, which is currently a pressing issue for the entire aerospace industry.

JA Official Character

A new JA character "JACKY" was born on the occasion of JA2024. JACKY is based on a phoenix to symbolize the expected V-shaped recovery of the Japanese aerospace industry after overcoming the pandemic. We hope everyone will like JACKY.

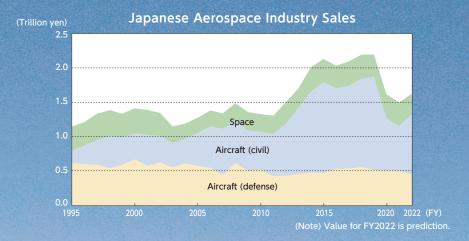

©2023 The Society of Japanese Aerospace Companies, Designed by Kazuyo Yasumoto

O Japan's soaring aerospace industry

Japan's aerospace industry plays an important role in the world by providing licensed production of defense aircraft and developing small and large aircraft, satellites, and rockets, as well as participating in various international joint development projects and collaborative production. This industry exceeded a production value of two trillion yen in the late 2010s.

After this production value decreased due to the decline in aircraft demand during the COVID-19 pandemic, FY2022 saw a rapid turnaround with a 13.6% year-on-year increase. This recovery is expected to continue into the future.

The production of engines for civil applications is also on track for a full recovery as things return to normal after the COVID-19 pandemic. With the production of commercial aircraft such as the Boeing 787 and 777X expected to increase in the future, we can confidently anticipate long-term growth. As for the defense sector, there are high expectations for the stable procurement of fixed-wing and rotary-wing aircraft, and the development of next-generation fighter aircraft based on the Defense Buildup Program announced in 2022.

O A wide range of exhibitors covering the entire industry

JA2024 brings together government agencies, embassy officials, major companies, and industry players so you can stay up to date with the latest global market conditions. In addition to showcasing aerospace and defense manufacturing, operation, and MRO, companies from a wide range of industries will participate to display their parts, materials, machine tools, measurement and inspection equipment, software, business operations, and shipment services. Exhibitors will have opportunities to broaden their businesses in various fields not only with visitors but also with other exhibitors.

O Introductions to a wide range of new areas and trends

In addition to the existing exhibit areas, JA2024, the first since JA2016 and JA2018, we wish to invite exhibitors involved in cutting-edge fields such as decarbonization (SAF/hydrogen/electrification), UAM (flying cars/drones), and the space business (small satellites/space exploration). We aim to provide new opportunities for Japanese and overseas aerospace companies that are breaking new ground in areas such as urban air transportation, in addition to existing areas such as the manufacture, MRO, and maintenance of airframes and equipment, materials development, and the provision of passenger transportation services.

Results of JA2016

Number of Exhibitors and Booths

812 companies and organizations 1,291 booths

Participating Countries/Regions

31 countries/regions

Number of Visitors

Total **44,000**Trade day: **31,000**Public day: **13,000**

Let's join Japan's largest general aerospace exhibition, together with major Japanese and Companies from a wide range of industries will exhibit, introducing a broad range of areas as well as new areas such as UAM and decarbonization. Don't miss the chance to see the

Benefits of Participating

Business matching opportunities

You can use the business matching system which is a solid track record at overseas exhibitions and can be said to be the de facto industry standard provided by French company abe - advanced business events/BCI Aerospace. This system provides effective business opportunities to interact with other corporations from both Japan and abroad.

【JA2016 Results】

Number of Meetings: 4,457 meetings (2 days)

Number of Companies: 316 companies from 24 countries

[Supplier: 284 (Overseas: 85, Japan: 199), Buyer: 32 (Overseas: 21, Japan: 11)]

Lectures and seminars by industry leaders

We invite lecturers from government agencies and major companies in Japan and overseas to hold lectures and seminars where they disseminate the latest information on the aerospace industry, and discuss future predictions as industry leaders. To expand the number of visitors, productive events will be planned.

■Promotional activities to attract visitors

We offer a range of promotional activities to attract visitors.

○Providing the latest information on the exhibition

- Updating the official website for posting the latest information
- Distribution of e-newsletters and direct mail
- · Posts on social media

- Advertising using digital tools, newspapers, and industry magazines
- Publicity activities

♦ Other activities

- •PR activities at overseas exhibitions
- Requests for cooperation to Japanese and foreign industry organizations and government agencies

Exhibiti

Blue Im

Public events held on the final day

On the final day (October 19), various public events will be held to introduce the aerospace industry to the general public, including young people. This aims to bolster interest and understanding of the current state and future of the aerospace industry.

Target Visitors

Business person in the fields of manufacturing and operation related to Aerospace and Defense equipment

- Aviation/Space/Mechanical/ Electric/Electronic/Precision equipment, Parts, Material
- Air transportation, Infrastructure related to aviation
- Maintenance Repair and Overhauls
- Telecommunication
- Trading Company, Agency
- Government office, Public organization, Educational institution

Business person related to Space business

- Space utilization/Space exploration/Space infrastructure
- Start-up company

Business person in the field of development/manufacturing/operati on related to Decarbonization

- Development/Manufacturing/ Supply/Operation related to SAF
- Development/Manufacturing/ Supply/Operation related to Hydrogen
- Development/Manufacturing/ Supply/Operation related to Electrification

Business person in the field of development/manufacturing/operat ion related to UAM(Urban Air Mobility)

- Development/Manufacturing/ Supply/Operation related to Drone, eVTOL, and Flying car
- Development/Manufacturing/ Operation related to UAM infrastructure
- Transportation, Logistics, Disaster, Measure, Photography, Security, Agriculture, etc.

General Visitors

- All those interested in the aerospace industry
- All those related to the aerospace industry

- Consumables including fuel
- Manufacturing/ Supply of SAF

- Manufacturing/ Supply of Hydrogen
 - Manufacturing/ Processing machines
 - Drill, Tool
- Inspection/ Measuring equipment
- Maintenance Repair and Overhauls

Introduction of Exhibit Areas

- ♦ This area is related to R&D, manufacturing, operation, and maintenance of aircraft and missiles. In the manufacturing sector, this includes design, materials, manufacturing, testing, inspection, sales, and MRO of airframes/engines/related parts. In the operations sector, this includes airline, security and communication for locations where aircraft take off and land, and the construction of facilities and ground equipment. A wide range of companies working in these areas come together not only from Japan but also from overseas. As this exhibition attracts government agencies from Japan and overseas as well as various industry players, it offers great opportunities for business expansion.
- 📵 🔘 🚱 The exhibition will create new business matching opportunities for future-oriented industries involved in the production and supply of sustainable aviation fuel (SAF) and green hydrogen, which are actively being researched and developed around the world to promote decarbonization, as well as the development of cutting-edge drone services that are being introduced in various areas such as agriculture, surveying, logistics, disaster management, inspection, research, and journalism.

Space material/parts (4) (20)

- Consumables including fuel
- Manufacturing/ Processing machines
- Drill, Tool
- Inspection/ Measuring equipment

Introduction of Exhibit Areas

- ♦ This area will see participation from companies in the space sector involved in the manufacture of satellites/ rockets/ground facility's equipment, and rocket launches, as well as companies providing services that utilize satellite-communications and positioning information based on artificial satellites and other space infrastructure. It will also have participation from various Japanese and overseas companies involved in areas such as the manufacture of GPS-equipped mobile phone equipment and satellite dishes that are required for various services.
- 📵 🕢 👁 One of the sub-themes of this exhibition is "New Domain for Human Activities, Outer-Space & Cyber-Space". In recent years, small satellites are being developed thanks to the miniaturization and improved performance of electronic components. While this allows various services that utilize satellite data in industries such as agriculture and disaster prevention, it also creates the potential issue of space debris. Several countries are also advancing in their quests to develop new technologies and businesses related to space exploration and travel to the moon and Mars. These new areas of business have been called a "modern gold rush" as they create new opportunities to enter the space business market, where new services and products are expected to emerge.

Exhibit Areas

Introduction of Exhibit Areas

- Urban Air Mobility (UAM) is the urban air transportation system for transporting people and goods by air. Focusing on electric vertical take-off and landing aircraft (eVTOL), there has been rapid development of drones and drone technology that are expected to bring about the so-called "industrial revolution in the sky". JA2024 will showcase a wide range of cutting-edge UAM technologies such as flying cars that are being developed for the 2025 Osaka/Kansai Expo and vertiports that will serve as airports for flying cars. This provides valuable opportunities to expand business into the UAM field, which is one of the most prominent "Post COVID-19 Transportation".
 - One of the sub-themes of this exhibition is "SDGs in Aerospace Industries". SAF (Sustainable Aviation Fuel) is thought to be a critical factor for the decarbonization of aviation. Therefore, rapid development and adoption is a pressing issue. Furthermore, new technologies such as hydrogen-powered and electric aircraft are expanding its business market not only to make aircraft operations more sustainable, but also to develop infrastructure, such as airports. This expansion of business consists of improvements to existing technologies, such as automation and upgraded efficiency, as well as the introduction of new technologies. We are actively seeking exhibitors from such areas that contribute to the common objective of achieving SDGs. Therefore, JA2024 plays an important role in the quest to match SDG targets.

JA2024 aims to promote new areas that help achieve the following Sustainable Development Goals.

Design

Introduction of Exhibit Areas

- The latest technology such as DX (digital transformation) and Cyber-Space allows optimal, shortest, and high-mix low-volume development and manufacturing through the utilization of consistent streams of data throughout the entire process from design and prototyping to manufacturing and evaluation. In addition, data-based simulation technology can now be used in a wider range of applications from design to manufacturing, evaluation, and examination. JA2024 provides valuable matching opportunities for exhibitors and visitors who share a strong interest in DX.
- After the lifting of travel restrictions due to the COVID-19 pandemic, people are now rediscovering the joy and excitement of air travel. The space industry is mainly being promoted by private companies. Nowadays, people focus on life in space (clothing, food, and shelter), and new services and products are being created to solve problems, and to fulfill needs. Travel agencies have already started offering space tours, and more people are interested in space travel, an entirely new level of tourism, that can deliver experiences that are not possible on Earth. At JA2024, we are planning a public day on Saturday, which will provide an opportunity to engage with a diverse range of people in the entertainment area.

Exhibition Regulations CHAPTER I GENERAL PROVISIONS

Article 1 Name

The English name of The Exhibition shall be "Japan International Aerospace Exhibition 2024" and its popular name shall be "Japan Aerospace 2024". It shall also be called "JA2024" in short.

Article 2 Organizer

- The Society of Japanese Aerospace Companies and Tokyo Big Sight Inc. (hereinafter jointly referred to as the "Organizer") will jointly organize the International Aerospace Exhibition 2024 (hereinafter referred to as "The Exhibition").
- The Organizer shall have all authority and responsibility for the holding of The Exhibition. Article 3 Exhibitors

- Exhibitors shall be institutions, corporations, or organizations that have applied to exhibit at The Exhibition and have been accepted by the Organize
- Exhibitors must follow the rules or instructions set forth by the Organizer regarding the display and operation
- The Organizer reserves the right to reject exhibition participation if it is deemed that the content of the exhibit is not in line with the purpose of The Exhibition. The Organizer shall not be liable for any damage caused by such rejection.

Article 4 Management Office

- The Organizer shall establish the Japan International Aerospace Exhibition Management Office (hereinafter referred to as the "Management Office") at Tokyo Big Sight Inc. to conduct The Exhibition.
- The Organizer may delegate to the Management Office the authority to conduct business in organizing The Exhibition.

CHAPTER II EXHIBIT GUIDELINES. FTC.

Article 5 Application for Exhibition Participation and Formation of Contract

- The applicants agree to abide by this Exhibition Regulations and apply to the Management Office by entering
 the required information online at the exhibition application page on the official website of The Exhibition.
- The Management Office will confirm the details of the application and send a "Confirmation of Application" to those applicants who are considered to be in line with the purpose of The Exhibition.
- The contract between the applicant and the Organizer (hereinafter referred to as the "Exhibition Contract") shall become effective at the time this "Confirmation of Application" is sent online.
- The Organizer reserves the right to reject exhibition participation even after a contract has been concluded if it is deemed that the content of the exhibit is not in line with the purpose of The Exhibition. The Organizer shall not be liable for any damage caused by such rejection.

Article 6 Booth Fees

- The booth fees shall be paid in Japanese currency.
- General Exhibitors (Japan / Overseas) will be charged JPY 560,000 (excluding tax) per booth. One booth is 9 $\,$ m^2 (width 3 m x depth 3 m, height 2.7 m).
- Regular Member or Associated member of The Society of Japanese Aerospace Companies are entitled to a 5% discount on the booth fees.
- A discount of 10% of the booth fees may be applied to Exhibitors from Government offices, Local governments, NPOs, IAAs, Schools and other public corporations, Organizations, and Foreign embassies.
- In the event that an indoor display of actual or mock-up exhibits requires a space of 36 m2 or more, such exhibits shall be considered indoor large exhibits, and a 30% discount of the booth fees may be applied only to the booth space for large exhibits (calculated from the overall length x width of the exhibit, in units of booth space).
- Paragraphs 3 and 4 of this Article apply discounts to booth space, excluding the space for indoor large exhibits, and in the event of overlapping discount conditions, the one with the higher discount rate shall apply.
- In the event that the Organizer grants a discount separately, it is not limited to the provisions of Paragraphs 2 through 6 of this Article.

Billing and Payment of Booth Fees

After the Exhibition Contract is approved, the Management Office will invoice the Exhibitor for the booth fees, which the Exhibitor must remit to the account designated in Article 8 hereunder by May 31, 2024

Article 8 Where to Pay Booth Fees, etc.

Booth fees payable by Exhibitors and cancellation fees and penalties stipulated in Articles 14 and 15 hereunder shall be paid to;

Bank Name: Mizuho Bank, Tokyo Sales Department Ordinary Account No.: 4521490

Account Name: Tokyo Big Sight Inc. Article 9 Transfer Fees, etc.

- All fees (remittance fee, yen exchange handling fee, foreign currency receipt/payment fee, correspondent
 payment fee, destination remittance fee, etc.) incurred in connection with the payment of fees related to the
- exhibition including expenses during the exhibition period shall be borne by the Exhibitor.

 If there is a shortfall in the fee specified in the preceding paragraph, the Organizer reserves the right to charge the Exhibitor an additional administration fee equal to the amount of the shortfall.

 Article 10 Determination and Rearrangement of Exhibitor Booth Locations

- The Organizer will determine the location of the Exhibitor's booth, taking into consideration the zoning, exhibit area, booth size, and the number of participations in past exhibitions. Exhibitors are not allowed to object to or request a change in this location to the Organizer. In addition, the Organizer will not disclose to Exhibitors how the booth locations are determined.
- The Organizer reserves the right to reallocate booths even after the booth locations have been announced in order to improve the effectiveness of the exhibition. In such a case, the Exhibitor shall not claim compensation from the Organizer for any expenses incurred due to the rearrangement of booth locations.

Article 11 Prohibition of Subleasing of Booth, etc.
Exhibitors may not sublease, sell, exchange, or transfer the right to exhibit under the Exhibition Contract or their own booth without the consent of the Organizer. However, this provision shall not apply if an Exhibitor has notified the Organizer in advance and obtained the Organizer's consent to allow co-exhibitors to use or lease a part of the Exhibitor's booth.

Article 12 Installation and Removal of Exhibits, etc.

- 1. Exhibits shall be brought into the exhibition hall and installed within the time separately notified by the Management Office. If the Exhibitor does not occupy the booth by this time, the Organizer shall deem that the contract is canceled. In such case, the Exhibitor shall pay the cancellation fees stipulated in Article 14 to the Organizer on the same date as the date of cancellation.
- Exhibitors shall obtain the approval of the Management Office before move-in, moving, or move-out exhibits during the exhibition period.

 Exhibits and decorations in the booths shall be removed within the time to be notified by the Management
- Office at a later date. Any items not removed by this time shall be removed by the Organizer, and all expenses incurred by the Organizer for such removal shall be borne by the Exhibitor and shall be paid separately to the Organizer upon request by the Management Office.

Article 13 Prohibitions

- Exhibitors are prohibited from engaging in the following activities

 1) Immediate sale of exhibits (excluding books related to the exhibits and other items approved by the Organizer)
- 2) Displaying exhibits, setting up decoration, distributing catalogs, or engaging in other promotional activities outside of their booths in the exhibition hall building and grounds. However, this restriction shall not apply if the Organizer gives prior consent.
- Acts that may cause inconvenience to other Exhibitors, visitors, or the Organizer
- Acts that may cause damage to the buildings, facilities, or grounds of the venue, including the Exhibitor's 4) Acts prohibited under the terms and conditions of these Exhibition Contract and Exhibition Regulations, etc.

The January of the China Control of the China

Cancellation or Withdrawing from The Exhibition by Exhibitor

- A lift he Exhibitor wishes to cancel all or part of the exhibition, the Exhibitor shall submit a written notice to the Management Office stating the cancellation and the reasons thereof. Upon approval of the contents of the notice by the Organizer, the Exhibition Contract will be canceled and the Exhibitor may proceed with the cancellation by paying the cancellation fee, as stated below, to the Organizer.
 - (1) If the cancellation date is on or before May 31, 2024: 10% of the booth fees (2) If the cancellation date is on or after June 1, 2024: 100% of the booth fees
- If the total amount of the booth fees paid by the Exhibitor (hereinafter referred to as "the amount already paid") is less than the cancellation fee to be borne by the Exhibitor, the Exhibitor shall immediately pay the difference. If the amount already paid by the Exhibitor exceeds the cancellation fee to be borne by the Exhibitor, the excess amount shall be refunded by the Organizer to the Exhibitor.

3. If an Exhibitor wishes to change the exhibition format, the Exhibitor must notify the Management Office of the details of the change at least 60 days prior to the date of The Exhibition, and the change must be approved by the Organizer.

- Article 15 Cancellation of Participation in The Exhibition by the Organizer

 1. The Organizer reserves the right to cancel the Exhibition Contract and cancel the Exhibitor's participation in the exhibition on the condition that the Exhibitor will be refunded the booth fees already paid if the Organizer deems that the Exhibitor is not suitable for The Exhibition even after the confirmation of application has been issued.
- The Organizer reserves the right to cancel the Exhibition Contract with any Exhibitor who fails to pay the booth fees by the designated date
- If the Organizer cancels the Exhibition Contract in accordance with the preceding paragraph, the Organizer will notify the Exhibitor in writing of the cancellation and the date of cancellation will be the date of issuance of the notice. The Exhibitor who is notified of the cancellation of the Exhibition Contract shall pay the Organizer
- the notice. The Exhibition who is nothing of the Cancellation of the Exhibition Contract shall pay the Organizer the following penalty fee based on the date of cancellation.

 (1) If the exhibition cancellation date is before May 31, 2024: 10% of the booth fees

 (2) If the exhibition is canceled on or after June 1, 2024: 100% of the booth fees

 The Organizer reserves the right to cancel the Exhibition Contract without any notice if an Exhibitor is found to be a crime syndicate, a member of a crime syndicate, a person related to a crime syndicate, a company affiliated with a crime syndicate, a corporate extortionist, a social movement advocacy group (collectively, "Anti-Social Forces"), or a person who is deemed to be unsuitable for The Exhibition. In such a case, the Organizer shall not be liable for any loss or damage incurred by the Exhibitor, and the Organizer reserves the right to claim for any loss or damage caused by the Exhibitor. In addition, if the Exhibitor has already paid the booth fees, the Organizer will not refund it to the Exhibitor. CHAPTER IV OBLIGATION TO COMPENSATE, ETC.

- Article 16 Cancellation or Suspension of The Exhibition
 1. In the event that the Organizer deems it impossible or difficult to hold or continue The Exhibition (or any part thereof) due to force majeure, the Organizer may cancel or suspend The Exhibition, change the date and time of The Exhibition, or change the size of the venue. Under no circumstances shall Exhibitors be entitled to claim mpensation from the Organizer for any damage caused by such a decision.
- The force majeure events mentioned in the preceding paragraph shall mean typhoons, floods, windstorms, epidemics, earthquakes, fires, explosions, and other accidents, acts of terrorism, riots or civil disturbances, strikes, and other labor disputes, as well as regulations or requests by the national and local governments, or when the land and buildings where The Exhibition is held become unsuitable for admission.
- If the Organizer decides to cancel the exhibition after June 1, 2024, in accordance with the provision of the first paragraph of this Article, the difference between the booth fees already paid and the booth fees, less the necessary expenses, will be refunded to the Exhibitor. If the Exhibitor has not paid the booth fees at the time of the cancellation, the Exhibitor shall pay the necessary expenses to the Organizer.

- Article 17 Management of Exhibitors and Exemption from Liability of the Organizer

 1. The Organizer reserves the right to request Exhibitors to cancel or restrict the delivery, display, and demonstrations, or take other necessary measures to ensure the smooth operation of The Exhibition. In such cases, the Exhibitor must immediately implement the measures requested by the Organizer at the Exhibitor's
- If an Exhibitor fails to comply with the preceding paragraph, the Organizer reserves the right to take necessary
 measures on behalf of the Exhibitor. The Exhibitor shall bear the cost of such action. The Organizer will not be
 liable for any loss or damage incurred by the Exhibitor as a result of such action.
- Under no circumstances shall the Organizer be liable to compensate for any theft, loss, damage, or any other property damage to exhibits, articles moved-in to the venue incidental to the exhibition (including personal belongings carried by Exhibitors and their related persons), or any or all of the exhibition booth facilities.
- In no event shall the Organizer be liable to compensate the Exhibitor, the Exhibitor's employees or agents, other related persons, or any third party for any or all property damage or personal injury caused by the Exhibitor's display (including demonstrations) or the Exhibitor's participation in The Exhibition, or by any or all of the foregoing.

Article 18 Management of Exhibits and Liability of the Organizer
The Exhibitor shall be responsible for the management of the exhibits and shall be jointly and severally liable for any loss or damage arising from any cause whatsoever, whether intentional or negligent, caused by the Exhibitor, his/her agent, or co-Exhibitor to the Organizer or any third party, and the Organizer shall not be liable for such

loss or damage. Article 19 Exhibits

- Exhibitors shall specify the exhibit areas and detailed areas at the time of application and may only exhibit
 products in the exhibit areas specified in the approved exhibit application form. If there is any change in the
- products to be exhibited, the Exhibitor must notify the organizer without delay and receive another approval.

 If an Exhibitor exhibits products different from those permitted under the preceding paragraph, the Organizer reserves the right to take necessary measures on behalf of the Exhibitor. The Exhibitor shall bear the incurred for such action. The Organizer will not be liable for any loss or damage incurred by the Exhibitor as a result of such action.

Article 20 Compensation for Damages

The Exhibitor shall indemnify the Organizer for any damage to the exhibition site facilities, damage to third-party exhibition booth facilities or exhibits, or other property damage or personal injury caused by negligence on the part of the Exhibitor or his/her agent or any other cause beyond the control of the Organizer. CHAPTER V BONDED EXHIBITS

Article 21 Bonded Exhibition Hall

The Organizer shall apply for bonded exhibition space for the exhibition hall portion of The Exhibition venue. Exhibitors displaying bonded cargo must submit a notification by the designated date in accordance with a separate notice from the Management Office. If the Exhibitor does not notify the Management Office of bonded cargo by the deadline, the Exhibitor will not be allowed to exhibit.

CHAPTER VI OTHER Article 22 Issuance of Invitation Guarantee

Exhibitors may not request the Organizer to issue a Letter of Guarantee of Invitation or other documents necessary for the issuance of a visa.

Article 23 Compliance with Regulations

- Exhibitors must comply with this Exhibition Regulations as well as other rules and regulations stipulated separately by the Organizer (such as exhibition guidelines, exhibition application form, Exhibitor manual, etc., hereinafter collectively referred to as the "Rules")
- The Organizer reserves the right to change the Rules due to unavoidable circumstances. The Exhibitor agrees
- in advance to these changes and must comply with the revised Rules.

 If an Exhibitor violates any of these Rules, the Organizer reserves the right to refuse or cancel the exhibition and terminate the Exhibition Contract regardless of the reason. The Organizer shall not be liable for any damages incurred in such cases, and the provisions of Article 15, paragraph 3 shall apply mutatis mutandis to the Exhibitor's penalty fee

Article 24 Compliance with Governing Law and Japanese Legal Regulations

The Rules and related contracts shall be governed by and construed in accordance with the laws of Japan. In addition, Exhibitors must comply with Japanese laws and regulations. Particular attention shall be paid to aviationrelated laws and regulations, fire laws and regulations, and laws and regulations related to the import and export of weapons.

- Article 25 Handling of Personal Information

 1. When Exhibitors acquire personal information at The Exhibition, they must comply with the Act on the Protection of Personal Information and related laws and regulations and must acquire, manage, and operate such personal information in an appropriate manner.
- When using personal information, the purpose of such use shall be publicly announced or notified in advance, and the information shall be used within the scope of such use.

 Exhibitors shall be responsible for resolving any disputes with third parties that may arise in connection with
- the acquisition, management, operation, and use of Exhibitors' personal information.

The Organizer and Exhibitors agree to submit to the exclusive jurisdiction of the Tokyo District Court as the court of first instance in the event of litigation regarding any disputes arising from this Exhibition Contract. Article 27 Language
The language used for these Rules and each document prepared and disclosed by the Organizer in connection

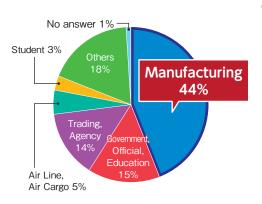

therewith shall be Japanese. Article 28 Doubts

The Organizer shall retain the right of final decision on any matter not provided for in these Rules or in case of doubt.
